

Mira Folnovič

Mira Folnovič graduated in 1990 at the Faculty of Economics and Business in Maribor in business information sciences. In 1992, she started working at IZUM, where she worked in the user service department until 2002, where she mainly dealt with loans, focusing on user requests, training courses and documentation. Since 2002, she has been working as a software developer, focusing on the development and introduction of the COBISS3/Loan software. Now she mainly works on tasks related to COBISS3/Loan, managing software improvement requests, planning solutions, preparing specifications and user documentation.

Online Registration

The service of online registration of COBISS+ users to the library is presented. The requirements for using the service are described, along with which settings should be defined in the library and the way of monitoring online registration. A practical example of online registration is also given.
