

211 PROJECTED PUBLICATION DATE

This field contains the projected date of publication of an item. The field is used for CIP (Cataloguing in Publication) entries and similar advance records created from information provided by the publisher.

Subfields & repeatability

FIELD/SUBFIELD		REPEATABILITY
211	Projected publication date	nr
	a <i>Date</i>	nr

Indicators

Indicator values are not defined.

SUBFIELDS

211a Date

The date should be entered in all numeric form without separators between year, month, and day, i.e. YYYYMMDD. YYYY indicates year, MM indicates month, and DD day. Where day and month are unknown, those positions contains blanks.

NOTES ON FIELD CONTENTS

If a record contains a field 211, there must be the code "p" or "i" entered in subfield 001a. This is a temporary field, to be deleted when the record is updated (see examples 1, 2).

RELATED FIELDS

001a *RECORD LABEL, Record status*

A subfield 001a contains code indicating record status.

210d *PUBLICATION, DISTRIBUTION, ETC., Date of publication, distribution, etc.*

A subfield 210d contains a publication date.
