

301 NOTE PERTAINING TO IDENTIFICATION NUMBER

This field contains a note on any identification number appearing on the item or in the record.

Subfields & repeatability

FIELD/SUBFIELD			REPEATABILITY
301		Note pertaining to identification number	r
	a	<i>Text of note</i>	nr

Indicators

Indicator values are not defined.

SUBFIELDS

301a Text of note

This field may be used for notes relating to any identification number appearing on the document or when it is known to have been assigned to the document being recorded.

NOTES ON FIELD CONTENTS

A field may be used to note the number itself, if it can not be recorded in any of the fields 010 to 071 which deal with identification numbers, or it can be used to comment on a particular number. If notes about more than one number are to be recorded, each is entered in a repeated field 301.

An identification number may be preceded by a corresponding introductory phrase, e.g. "Contract number:" or "Ref. nr.:".

RELATED FIELDS

0XX IDENTIFICATION BLOCK

Prefer the use of identification block when data from a note field in a source format can be formatted to be entered in 0XX fields.
