

## 410 VARIANT ACCESS POINT – CORPORATE BODY NAME

This field contains the variant access point for a form of corporate body name referred from.

Territorial names alone, which are used as author access points, are considered corporate body names (field 410). Territorial names, which are followed by a corporate body subdivision and which are used as author access points or as subject access points, are also considered corporate body names. Territorial names alone or only with subject subdivisions as additions, which are used as subject access points, are considered territorial names (field 415).
