Knjižnica / Library

Revija za področje bibliotekarstva in informacijske znanosti / Journal of Library and Information Science

ISSN 0023-2424

Branka Badovinac
Managing Editor
Aims and scope

LIBRARY (KNJIŽNICA, ISSN 0023-2424) was incepted in 1957 by the Association of Slovenian Librarians. As in 1984 the association changed its name, LIBRARY became the official journal of the Slovenian Library Association.

LIBRARY publishes refereed articles and short communications presenting recent scientific and professional achievements in library and information science, book studies and related fields.

LIBRARY aspires to support and stimulate the development of theory and practice and to raise the knowledge and skills of professional staff.

Founded and published by: Zveza bibliotekarskih društev Slovenije (Slovenian Library Association)

Co-published by: Narodna in univerzitetna knjižnica, Slovenija (National and University Library, Slovenia)
LIBRARY is indexed in:

- LISA (CSA),
- LISTA (EBSCO),
- Proquest Science/Technology Databases (HT&AJ, Technology Journals, Illustrata Technology), Proquest Research Library, ProQuest Library Science,
- IBZ,
- DOAJ.
LIBRARY is open access journal, fulltext articles are available at:

- Google Scholar,
- dLib, and
- COBISS/OPAC.
The aim of the international issue is to stimulate scientific communication on recent development in library and information science (LIS) and profession in South Eastern and Eastern European regions.

The international issue welcomes:
(1) research articles covering various aspects of LIS and related fields as well as
(2) research articles covering various aspects on LIS and related fields by authors (researchers, students, librarians, etc.) affiliated in South Eastern and Eastern European regions.
Call for papers

The journal welcomes manuscript submissions meeting the general criteria of scientific excellence and significance, especially if the research is based on international cooperative projects or multidisciplinary approach.

Relevant research fields include, but are not limited to:

- Digital libraries, Digitisation, Digital Preservation, Evaluation of Digital Library Collections,
- Library and Information Science Education,
- User Studies in Library and Information Science,
- Libraries, Museums, and Archives in the Global Information and Cultural, Political and Social Environment,
- The Book and Book Publishing Studies,
