

COBISS3 software
Version V6.4-03, January 2016

**Description of new features in the COBISS3/Basic Guidelines
software module**

The following update was added to version 6.4-03 of the COBISS3 software:

1. List of search indexes

To help you with the expert search we added a list of prefixes for searching holdings data to the list of prefixes, available by clicking the  button.
