COBISS3 software
Version V6.5-00, March 2016

Description of new features in the COBISS3/Basic Guidelines software module

The following update was added to version 6.5-00 of the COBISS3 software:

1. Search window

The **Next 50** button replaced with the **Next 200** button in the search window of the **Bibliographic record**, **Authority record (CONOR)**, **CORES**, **Field 996/997**, **Field 998** and **COBIB.SI** classes. You can use this button to transfer 200 search results at the same time.
