

## A.2 CONOR AUTHORITY DATABASE

### A.2.1 Basic index

All fields and subfields that are indexed in basic index are searchable without entering the search suffix or by using the prefix KW=.

The table contains a list of suffixes for limiting searches only to certain basic index fields.

**Table A.2-1: Basic index in the CONOR authority database**

Suffix	Meaning	Search	Subfields
/CB	Corporate body name	word	210abcdefgh, 410abcdefgh, 510abcdefgh
/CP	Location of meeting/Addition to corporate body name	word	210ce, 410ce, 510ce, 710ce
/MY	Date of meeting	word	210f, 410f, 510f
/NT	Notes	word	300a, 330a, 340a, 820a, 830a
/PN	Personal name	word	200abcdf, 400abcdf, 500abcdf, 700abcdf

### A.2.2 Additional indexes

The table contains a list of prefixes that enable the search by additional indexes.

#### A.2.2.1 Data on the record

**Table A.2-2: Additional indexes in the CONOR authority database – data on the record**

Prefix	Meaning	Search	Subfields
AB=	Adopted records	phrase	---
CR=	Record created by	phrase	---
DM=	Date of creation	phrase	---
DR=	Date of last update	phrase	---
ID=	Record identification number	phrase	---
IS=	ISNI	phrase	010a
LC=	Control numbers from other systems	phrase	035a
RE=	Record modified by	phrase	---

### A.2.2.2 Authority data

**Table A.2-3: Additional indexes in the CONOR authority database – authority data**

Prefix	Meaning	Search	Subfields
BI=	Record marks	word	992b
CB= <sup>1</sup>	Corporate body name	phrase	210abcdefgh, 410abcdefgh, 510abcdefgh
CF=	Most frequent creator	phrase	911b
CH= <sup>1</sup>	Authorized access point – corporate body name	phrase	210abcdefgh
CP=	Location of meeting/Addition to corporate body name	phrase	210ce, 410ce, 510ce, 710ce
FR=	Frequency	phrase	911c
MY=	Date of meeting	phrase	210f, 410f, 510f
NP=	Other identifiers	phrase	017a
OR=	Replacement record ID	word	001x
PH= <sup>1</sup>	Authorized access point – personal name	phrase	200abcdf, 700abcdf
PN= <sup>1</sup>	Personal name	phrase	200abcdf, 400abcdf, 500abcdf, 700abcdf
RN=	Conversion note	phrase	916x
VN= <sup>1</sup>	Unlinked see reference	phrase	915abcdf

<sup>1</sup> Subfields of a field are indexed as one phrase. It is therefore recommended to truncate the search term with an "\*" when searching by CB=, CH=, PH=, PN= or VN=. Access points in indexes CB=, CH=, PH= and PN= are indexed with all diacritics entered into the access points. Without diacritics they are not retrieved.

### A.2.2.3 Coded data

**Table A.2-4: Additional indexes in the CONOR authority database – coded data**

Prefix	Meaning	Search	Subfields
AS=	Researcher's code	phrase	200r
FC=	Institution/organization code	phrase	911a
LA=	Language used by person/corporate body	phrase	101a
NA=	Nationality	phrase	102a
RS=	Record status	phrase	001a

### A.2.3 Limiting suffixes

The table contains a list of suffixes for additionally limiting searches.

**Table A.2-5: Suffixes for limiting searches in the CONOR authority database**

<b>Suffix</b>	<b>Meaning</b>	<b>Subfields</b>
/CBR	Corporate body name record	001c = "b"
/PNR	Personal name record	001c = "a"
