

COBISS3 Software
Version V6.0-00, June 2014

Description of new features in
the COBISS3/Serials software module

In the COBISS3/Serials software module, Version 6.0-00, the following features have been included:

1. Issuing a legal deposit receipt confirmation

It is now possible to send a legal deposit receipt confirmation to the liable institution.

2. New attributes in the Counters class

It is now possible to set up counters also for invoices and advances. For this purpose, new attributes, "Invoice (E)" and "Advance (E)", have been added to the **Counters** editor.
